## A Word To My Farmer Friends.

I always try to give my views  
of interest to the public; I try  
to be plain in telling what I be-  
lieve but never fall out with any  
body, who may not see things as  
I do.

Now as to pooling tobacco in  
the Farmers' Union Tobacco As-  
sociation. I believe the best in-  
terests of the tobacco growers  
will be promoted by making the  
tobacco pool as strong as possi-  
ble.

The farmers now have just  
two ways of selling their tobacco.  
One way is to leave the fixing of  
the price to the tobacco trust—  
the only one buyer of tobacco.  
Everybody who will stop a min-  
ute to think, knows what that  
means. It means reduced prices  
and unprofitable production of  
tobacco. It means in this sec-  
tion what it means in the Burly  
section, just as soon as the trust  
succeeds in disrupting the pool  
the price paid the farmers was  
cut in half.

The other way is for the farm-  
ers to co-operate by pooling their  
tobacco and having it sold  
through the Farmers' Union.  
The type of tobacco grown in  
this section is distinct from all  
others and regardless of what  
other sections may do. The to-  
bacco growers of the Farmers'  
Union should be united to pro-  
tect their interest. My advice  
to the tobacco growers of Crit-  
tenden county, is to pool their  
tobacco and in every way  
strengthen the Association.

My belief is if they permit  
the Association to go down, they  
will regret it and pay for it dear-  
ly in having to sell their tobacco  
at a far smaller price than they  
have received during the time  
the Association has been in exist-  
ence.

Some farmers will say they  
want to control their own busi-  
ness and sell their own tobacco.  
That would be all right if it

could be done, but it can't be.  
If there is no pool, the farmer  
must sell alone to the trust and  
therefore the farmer has noth-  
ing whatever to do with selling  
his own tobacco or handling his  
own business. The trust attends  
to that for him.

The farmer can bet his last  
ginger cake that the trust will  
look after the interest of the  
trust in the transaction. If the  
farmer pools his tobacco with  
the Farmers' Union, he can de-  
pend upon them doing the best  
it can to look after the farmers'  
interest.

The farmer must leave the  
matter either to the trust or to  
the farmers' union association.  
It is left for the farmer to de-  
cide which it shall be.

The farmer has an object les-  
son that he would do well not to  
forget.

He knows what he received  
for tobacco when the matter was  
in the hands of the trust.

He knows what he has receiv-  
ed since the matter was in the  
hands of the Association.

Everything the Farmers' Un-  
ion has done may not have been  
to his liking, but it has helped  
to double the price of his tobac-  
co.

Everything the trust did and  
is yet trying to do, was and is  
unsatisfactory to the farmer to-  
gether with the fact it beat  
prices down to \$3.00 and \$4.00  
per hundred.

Therefore the advice I have to  
the farmers is to pool their to-  
bacco and be patient, be loyal  
and reap the reward of a perma-  
nent good price for their tobacco  
which they have no right to  
hope for, if they permit the  
Farmers' Union to go down and  
are again left unprotected in  
their dealings with the tobacco  
trust, the only buyer for their  
tobacco.

Respectfully Yours,  
CHAS. W. FOX,  
Sec'y of the Crittenden Co.,  
Farmers' Union Tobacco Associ-  
ation.

## A Correction.

We take pleasure in quoting  
from a letter of Wyatt Hunt,  
Clerk of Pleasant Hill church,  
the following correction. We  
were evidently misinformed.

Mr. Editor, it was a surprise  
to us to know you had published  
us as one faction composed of  
one-half the membership. The  
record of Pleasant Hill church  
shows that less than one-fifth of  
the membership under her watch  
care, have withdrawn.

Will you please explain a  
set us in the proper light before  
the public.

With best wishes for you and  
all concerned. I am yours re-  
spectfully. WYATT HUNT,  
Clerk of Pleasant Hill church.

## A Friend At Fredonia Writes:

I was so much interested in  
the good road movement, so well  
begun in your county as told in  
your last weeks issue, that I send  
you a cutting from Harper's  
Weekly, describing the road  
building process in Iowa. It seems  
to me a road that cheap, could be  
built here as well. You see a  
newspaper man started that, and  
if you can do as well for Ky.  
I know future generations will  
arise and call you blessed.

The article referred to "drag-  
ging a road across Iowa," will be  
published next week. The coun-  
ty's financial statement of what  
has been spent to work the roads  
crowded it out this week.
